

THE NATURAL BIRD CONTROL SOLUTION THAT WORKS

WE HAVE A WAY TO REMOVE BIRDS FOR GOOD

When birds make their home in and around areas of food and seed storage, ports and airports, processing facilities and farm buildings, they don't just make themselves a nuisance - they can have a significant financial impact on an organisation's bottom line.

Active Oxy provides a clean, cost-effective way to remove bird populations and ensure they don't return. Active Oxy is suitable for use in the following areas:

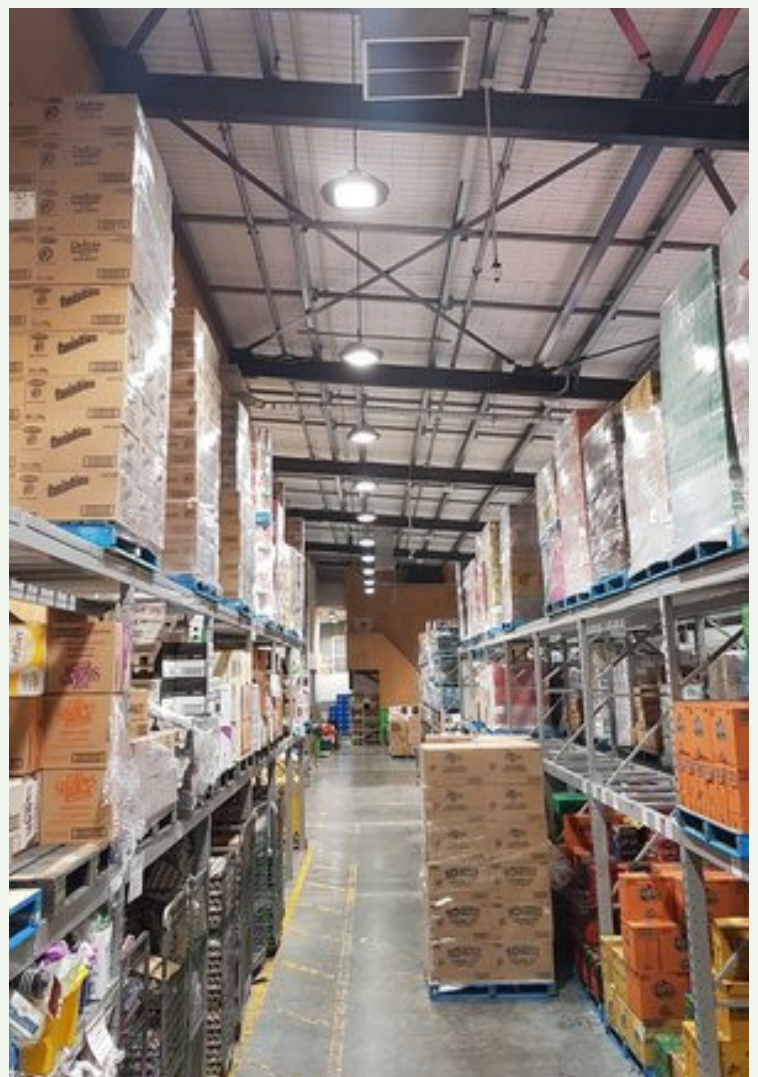

- Supermarkets
- Food storage
- Processing facilities
- Logistics centres
- Warehouse canopies
- Airports
- Ports
- Milking shed
- Animal housing areas
- Seed storage facilities
- Farm buildings

Why Active Oxy ozone?

- Occurs naturally in the environment
- Ozone generated on site – no storage
- Cost effective when compared with alternatives
- Auto-decomposition – no toxic residue
- Proven to control pest birds
- Safe for direct contact with food
- Effective as gas or in aqueous solution

PROVEN BIRD CONTROL ACROSS AUSTRALASIA

ABOUT US

We're here to provide a smarter alternative.

Active Oxy is a New Zealand based company that specialises in ozone technology and its application across a variety of industries. These include bird control in food and seed storage space, ozone cleaning applications across meat and produce processing, sterilisation of farming operations and water cleaning.

Why? Because we believe in the power of ozone.
